

Online Nutrition Solutions™

Compliance at your
fingertips

**Customized online nutri-
tional access from GSV
Enterprises, LLC**

ABOUT OUR COMPANY

GSV Enterprises, LLC is the premier provider of nutritional supplement access portals on the web. These allow you to deliver high quality, professional grade nutritional supplements to your patients, without the expense of an in office inventory.

Simply choose a model from our current available templates, fill out the required form and submit to our staff. We will register your domain name and setup your site within 48 hours.

All general customer service or questions about the services we provide should be directed to our business manager at:

customer service@gsventerprise.com
877-258-8803

Any technical support inquiries about your site should be directed to our technical support department at:

support@gsventerprise.com

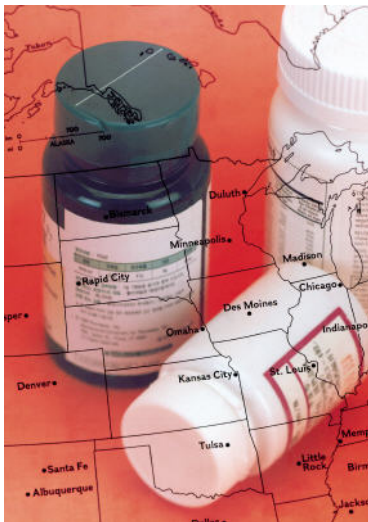

We look forward to serving healthcare professionals throughout the world.

Key Benefits

- Increased patient compliance on supplements
- Fully editable templates and information on your products
- Control patient access with password protection
- Offer only those items you prefer
- Provide professional grade supplements to your patients
- 24/7 profit center outside the office
- All brands on one site
- Reduce in-office inventory and shrinkage
- Drop-ship the order from the distributor directly to your patient
- List of patient email addresses for newsletters or other purposes
- Sales notification of both patient and practitioner
- Sales tax accounting reports for easy filing
- PayPal™ transaction service allows for secure transactions with no patient data stored at either end

Patients are buying more items each day from the Internet. Our customizable web site allows access to your professional grade supplements 24/7 from any computer. This will dramatically reduce in-office inventory and shrinkage while increasing patient compliance.

You display those specific supplements and products that you choose. All of your chosen vendors are on one site - yours. Patients aren't lost wandering the web of inferior products. You control patient access with password protection. You and the patient are provided with confirmation of sales. Patients can peruse other items that you offer and discuss them with you.

**For more information contact:

A sample web site is available for browsing. You may see it and browse the different pages at: www.demo1.gsventerprises.com.

We offer several templates. We are working with several distributors and if you don't see one of your vendors on our list, contact us.

This patient and practitioner friendly service is available for only \$50.00 (USD) per month. This includes 10 megs of server space (about 50 products), PayPal™ account access, order confirmation and 24 hour customer support. If more space is needed, more is available.

The process for registration follows:

Choose a domain name or web site address (ie., www.mywebsite.com), we suggest at least two choices as one may be unavailable. Submit your \$25.00 annual domain registration fee

Name and domain registration and web site template selection is available online at www.gsventerprises.com or at 877-258-8803.

In 24-48 hours, you will receive an email which will give you a web site address and passwords to access the site information. Each part of the site is fully editable and allows for you to upload pictures, vendor lists and product facts to help your patients make a good nutritional choice. If you prefer, our experts can set your site up for a small service charge if you provide the content.
